ADVERANT NEXUS · LEGAL PACK

Walls that hold. On every matter.

The legal pack brings matters, conflicts, privilege and ethical walls to Nexus. AI checks conflicts as work arrives and drafts with sources. Walls apply to every search, chat, call and answer. A lawyer signs off what leaves the firm.

My matters. Walls and conflict status at a glance, and an answer that cites the clause. Sample data.

More time on the law. Less on finding things.

Conflicts checked as work arrives

Every new enquiry is searched against matters, contacts, calls and mail. The conflicts team sees the hits and decides.

Walls the AI cannot see past

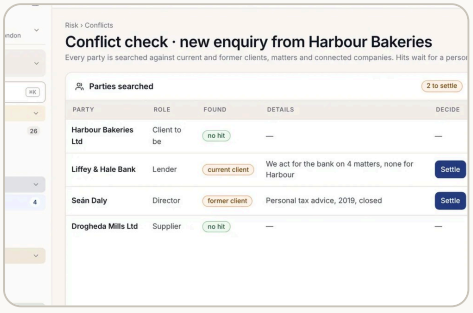

An ethical wall applies to people and to the assistant. Someone outside the wall gets no answer, and the attempt is logged.

Drafts you can check line by line

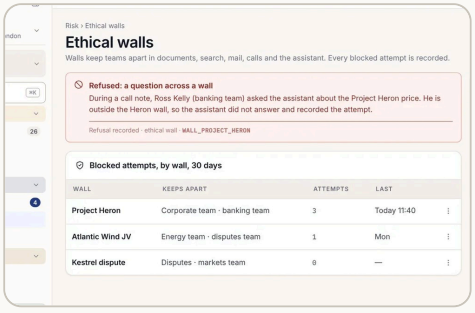

Each sentence in a draft links to the document it came from. Anything missing or contradicting is flagged.

Screens for each desk

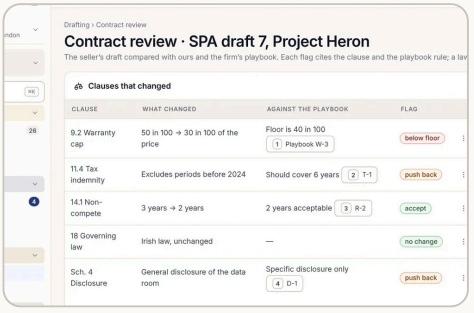

Sample screens with a made-up law firm

A conflict check. Every party searched; two hits wait for a person.

Ethical walls. A question from outside the wall, refused and recorded.

Contract review. Each change flagged against the playbook, with a drafted reply.

Who uses it

One pack, with a view for each role

Partner

Matters, deadlines, drafts waiting for sign-off, and risks the AI has flagged.

Associate

The matter file, research with sources, and drafts to work on.

Conflicts team

New enquiries, search hits and the decisions waiting for them.

Risk and compliance

Walls, blocked attempts, privilege marks and sealed decisions.

Knowledge lawyer

Precedents and clause banks, kept current from sealed final versions.

How it works: from first enquiry to a sealed sign-off.

01

Open

An enquiry arrives. The pack reads it and lists the parties.

02

Check

Every party is searched across the firm. Hits go to the conflicts team.

03

Work

Lawyers work behind the wall, with AI that drafts and cites its sources.

04

Seal

Clearances, walls and sign-offs are sealed and time-stamped.

WHAT IS SEALED

Every clearance, kept as it was decided.

When a conflict is cleared, a wall is built or a document is signed off, the pack seals the record.

Anyone can check a sealed decision offline with a free verifier, without an account with us.

THE RULES YOU ANSWER TO

- **GDPR** · Regulation (EU) 2016/679
  Client and staff personal data, used for a stated purpose
- **AML Regulation** · Regulation (EU) 2024/1624
  Customer checks when lawyers act in certain transactions, from 10 July 2027
- **EU AI Act** · Regulation (EU) 2024/1689
  AI literacy for staff and transparency when people deal with AI
- **eIDAS** · Regulation (EU) No 910/2014, as amended by (EU) 2024/1183
  Qualified electronic signatures and seals
- **CCBE Code of Conduct** · Council of Bars and Law Societies of Europe
  Confidentiality and conflicts of interest

Client confidences stay where you put them.

Run the pack in our EU cloud or in your own data centre. Sensitive matters can run with no outside connection.

WHY ADVERANT

Nexus is one platform for every industry: the legal pack adds the words, workflows and rules, and the platform brings permissions, AI agents with limits, a budget for every model and a sealed record of every decision. Nine patent applications are pending in Ireland on how AI agents get authority, stay within it and have what they do recorded.

Don Scott, Founder and CEO, architect of Nexus. **Donal Hanafin**, Co-founder, two decades building products for regulated financial services.

HOW TO START

Pick one practice group and one job, such as conflict checks for new matters. We connect your systems, switch on the pack, and you see it working on your own matters. We can start on a copy of past records, so nothing live is touched until you are happy.
